RENEWED PETITION UNDER 37 C.F.R. § 1.10(c)

Sir:

Pursuant to 37 C.F.R. § 1.10(c), Applicants hereby petition for correction of the filing date accorded to the above-identified patent application. Enclosed is a marked-up copy of a Filing Receipt issued by the U.S. Patent and Trademark Office in connection with this application. Also enclosed are copies of the front and back sides of the "Express Mail" mailing label for this application, having "Express Mail" label number EF230792255US.

In a phone conversation between a petitions attorney in the Office of Petitions and the undersigned on

February 8, 2002, the petitions attorney informed the undersigned that a printout from the United States Postal Service ("USPS") Web site that shows the shipment history for "Express Mail" label number EF230792255US would be sufficient to establish the date of deposit of this application under 37 C.F.R. § 1.10(c). Thus, enclosed is a "Shipment History" printout from the USPS Web site (<http://www.usps.com/shipping/epstrac.htm>) showing the date of deposit of this application.

Also enclosed are copies of each document in connection with this application on which the "Express Mail" label number was placed (i.e., the postcard, the first page of the Transmittal Letter, the Nonpublication Request, the first page of the specification, the first page of the unexecuted Declaration, and the first sheet of the drawings).

As shown in red ink on the enclosed marked-up copy of the Filing Receipt, this application has been incorrectly accorded a filing date of "October 11, 2001." As shown on the enclosed "Shipment History" printout from the USPS Web site, this application has a date of deposit of "October 9, 2001." The USPS stamped the date of deposit of "October 9, 2001" on the back side of the mailing label, as shown on the enclosed copy. The enclosed copies of various application papers show that the "Express Mail" mailing label number was

placed on each piece of correspondence prior to the original mailing of this application.

In accordance with 37 C.F.R. § 1.10(c), Applicants petition that the U.S. Patent and Trademark Office issue a corrected Filing Receipt in which the filing date of "October 9, 2001" is accorded to this application.

The Director is hereby authorized to charge any fee that may be due, or to credit overpayment of same, to Deposit Account No. 06-1075. A duplicate copy of this Petition is enclosed herewith.

Respectfully submitted,

Laura A. Sheridan

SYSTEMS AND METHODS FOR MANAGING
THE DISTRIBUTION OF ON-DEMAND MEDIA

[0001] This application claims the benefit of U.S. provisional patent application Nos. 60/239,522, filed October 11, 2000, 60/252,171, filed November 20, 2000, and 60/270,351, filed February 21, 2001, which are hereby incorporated by reference herein in their entireties.

Background of the Invention

[0002] This invention relates to on-demand media in an interactive television application, and more particularly, to systems and methods for managing the distribution of on-demand media in an interactive television application.

[0003] On-demand media, such as audio selections, video selections, electronic publications, electronic games, and software applications, are available to a user upon request. On-demand media is often requested for immediate distribution to the user's home equipment. The distribution of the on-demand media occurs at a certain bandwidth associated with the media. However, if the user's request for on-demand media requires more bandwidth than is currently available, the user's request can be rejected.

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
